Adult Weight Control

Formulated with chicken

Sizes available:
3 kg, 6 kg

Actual size

- A high-protein formula and low in carbohydrates that promotes rapid weight loss and significantly reduces blood triglycerides.
- Added L-carnitine helps eliminate excess body fat while maintaining muscle mass.
- Contains sundried tomato pomace, which is rich in vitamins and lycopenes, an excellent antioxidant.

This temporary-use product (3 months maximum) is designed for dogs that have been diagnosed as overweight by a veterinarian. Not recommended for gestating or lactating dogs.

Regular formula recommended after 3 months of treatment: **Dog, Adult Less Active and Senior.** With 35% less fat than the adult maintenance formula, this product is the most suitable for maintaining a healthy weight. This last product can be used as long as desired.
