Product Info

optimal growth

1st Choice - OPTIMAL GROWTH is formulated with tasty, nutritious, and low-allergenic ingredients to support kittens' growth and enhance coat quality.

- 1. The ideal solution for kittens who cannot digest chicken, have a sensitive stomach, or prefer tasty fish** > fresh cod, menhaden, and salmon
- 2. Optimizes growth and development (muscles, bones, vital organs, brain, eyesight, skin) while also promoting a silky, shiny coat** > high protein content (36%), calcium, and DHA (omega-3 and 6 fatty acids)
- 3. Eases the transition to dry food by being pleasant to chew** > rich and tasty natural flavor, kibble size and texture adapted to kitten's small teeth

This formula is part of our "Specialized Care" line. It can be fed to kittens throughout their first year and offered to the mother during gestation and nursing.

HIGH PROTEIN CONTENT

Promotes kitten development and coat quality.

EASY TO DIGEST

Optimizes digestion for kittens with sensitivities or intolerances.

DHA

Promotes normal brain development, eyesight, and other organs. Helps maintain coat quality and healthy skin.
